Boost Your Health, Naturally!

Dr. Charles M. Laycock

Adding **Vitamin D and Probiotics** in combination with your adjustments will give your immune system the boost it needs to fight all of those bugs going around!

Did you know that:

- *About **80% of your immune system** lives in your gastrointestinal tract.
- *500 different species of bacteria live inside of you.
- *About one hundred trillion bacteria live inside of you - more than **TEN TIMES** the number of cells you have in your whole body.
- *The weight of these bacteria is about two to three pounds.
- *Some of these bacteria are referred to as "good", but others do not provide any benefit. The ideal balance between them is 85% good, 15% "other".

Adding **GOOD bacteria** in the form of probiotics help keep this balance at healthy levels!

Parmesan Brussels Sprouts

Ingredients

- 3 Tablespoons of organic coconut oil
- 2 Cloves garlic, chopped
- 6 Organic Brussels sprouts, trimmed and halved
- 2 Tablespoons shredded Parmesan cheese, or more to taste
- Salt and ground black pepper to taste

Directions:

1. Heat a frying pan over medium heat until hot, about 3 minutes. Melt 1 tablespoon of organic coconut oil; cook and stir garlic until fragrant, 30 seconds. Add another tablespoon of organic coconut oil and Brussels sprouts, cut-side down; cover and cook until golden brown, 4 to 6 minutes.
2. Flip Brussels sprouts; add last tablespoon of organic coconut oil. Cover and cook until other side is browned, about 3 more minutes. Transfer to a serving plate. Sprinkle with Parmesan cheese, salt, and black pepper.

Did you know that **Vitamin D effects so much?**

- *Eye Health
- *Vascular System Health
- *Respiratory Health
